

The AutoReader Companion is option available for facilities utilizing AutoReader (post-processing narrative report data extraction). Provides radiologist access during interpretation to prior imaging, procedures and pathology reports, current and historical medical and risk history, risk assessment computed values, pro-active PeerReview and exam resolution, all in compact display with bi-directional softcopy synchronization.

Offers efficiency, compliments workflow productivity, projects pertinent information versus accessing multiple systems to obtain or paper history sheets, when voice recognition utilized for narrative report generation.

PenRad Exam (130) : Christine Jade Anderson, Able Clinic [PRU -7.65] 6/18/2016 15:53:21

Portia H. Rutter DOB: Apr 10, 1959 AGE: 57 F PID: 729819

Medical Risk History

Children birthed. 2

Patient weight. 123 lbs. 56 kg
Patient height. 5'-6". 167 cm

1st menstruation. 1971. age 12
1st full term pregnancv. 1979. age 20
